## SAFETY DATA SHEET according to Regulation (EU) 2020/878

Page 1/9

### Protectapeel MachineGuard

Revision 0

Revision date 2026-04-08

#### SECTION 1: Identification of the substance/mixture and of the company/undertaking

##### 1.1. Product identifier

|              |                           |
|--------------|---------------------------|
| Product name | Protectapeel MachineGuard |
|--------------|---------------------------|

##### 1.2. Relevant identified uses of the substance or mixture and uses advised against

|             |                                                                                                                                                 |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Use | [SU3] Industrial uses: Uses of substances as such or in preparations at industrial sites; [PC9a] Coatings and paints, thinners, paint removers; |
| Description | One-pack performance coatings.                                                                                                                  |

##### 1.3. Details of the supplier of the safety data sheet

|                                       |                                                                                                            |
|---------------------------------------|------------------------------------------------------------------------------------------------------------|
| Company                               | Spraylat International Limited                                                                             |
| Address                               | 1 Bardsley Road<br>Earlstrees Industrial Estate<br>Corby<br>Northamptonshire<br>NN17 4AR<br>United Kingdom |

| Email address of the competent person | enquiries@spraylat.co.uk                                                                                   |

##### 1.4. Emergency telephone number

|                            |                                                                                                                   |
|----------------------------|-------------------------------------------------------------------------------------------------------------------|
| Emergency telephone number | +44(0)1536 408409<br>9:00 am - 5:00 pm<br>NPIS<br>NHS 111 (England)<br>NHS 24 (Scotland) or<br>NHS Direct (Wales) |
|----------------------------|-------------------------------------------------------------------------------------------------------------------|

#### SECTION 2: Hazards identification

##### 2.1. Classification of the substance or mixture

|                                      |                 |
|--------------------------------------|-----------------|
| 2.1.2. Classification - EC 1272/2008 | Not Classified. |
|--------------------------------------|-----------------|

##### 2.2. Label elements

|                                 |                                                                                                                                     |
|---------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Hazard Statement                | No Significant Hazard                                                                                                               |
| SUPPLEMENTAL HAZARD INFORMATION | EUH208 - Contains 1,2-Benzisothiazolin-3-one. May produce an allergic reaction.<br>EUH210 - Safety data sheet available on request. |

##### 2.3. Other hazards

|               |                                                                 |
|---------------|-----------------------------------------------------------------|
| Other hazards | This product contains a known or suspected endocrine disruptor. |
|---------------|-----------------------------------------------------------------|

#### SECTION 3: Composition/information on ingredients

## Protectapeel MachineGuard

Revision 0  
Revision date 2026-04-08

## 3.2. Mixtures

## EC 1272/2008

| Chemical Name                                       | Index No.    | CAS No.    | EC No.    | REACH Registration Number | Conc. (%w/w) | Classification                                       |
|-----------------------------------------------------|--------------|------------|-----------|---------------------------|--------------|------------------------------------------------------|
| Diisononyl phthalate                                |              | 28553-12-0 | 249-079-5 | 01-2119430798-28          | 10 - 20%     |                                                      |
| 2-(2-Butoxyethoxy)ethanol (2-Butoxyethoxy) ethanol) | 603-096-00-8 | 112-34-5   | 203-961-6 | 01-2119475104-44          | 1 - 10%      | Eye Irrit. 2: H319;                                  |
| Benzotriazole derivative. .                         | 607-176-00-3 |            | 400-830-7 | 01-2119396032-43          | 0 - 0.5%     | EUH208; Skin Sens. 1: H317; Aquatic Chronic 2: H411; |
| Odourless Kerosene                                  |              | 64742-47-8 | 265-149-8 |                           | 0 - 0.5%     | Asp. Tox. 1: H304;                                   |

## Further information

Full text for all Hazard Statements mentioned in this section is displayed in Section 16.

## SECTION 4: First aid measures

## 4.1. Description of first aid measures

|              |                                                                                                 |
|--------------|-------------------------------------------------------------------------------------------------|
| Inhalation   | Move the exposed person to fresh air.                                                           |
| Eye contact  | Rinse immediately with plenty of water.                                                         |
| Skin contact | Wash off immediately with plenty of soap and water. Remove contaminated clothing.               |
| Ingestion    | DO NOT INDUCE VOMITING. If swallowed, rinse mouth with water (only if the person is conscious). |

## 4.2. Most important symptoms and effects, both acute and delayed

|              |                                             |
|--------------|---------------------------------------------|
| Inhalation   | May cause irritation to respiratory system. |
| Eye contact  | May cause irritation to eyes.               |
| Skin contact | May cause irritation to skin.               |
| Ingestion    | May cause irritation to mucous membranes.   |

## 4.3. Indication of any immediate medical attention and special treatment needed

|              |                                                           |
|--------------|-----------------------------------------------------------|
| Inhalation   | Seek medical attention if irritation or symptoms persist. |
| Eye contact  | Seek medical attention.                                   |
| Skin contact | Seek medical attention if irritation or symptoms persist. |
| Ingestion    | Seek medical attention if irritation or symptoms persist. |

## SECTION 5: Firefighting measures

## 5.1. Extinguishing media

Use extinguishing media appropriate to the surrounding fire conditions.

## 5.2. Special hazards arising from the substance or mixture

Cool fire exposed containers with waterspray. Burning produces irritating, toxic and obnoxious fumes.

## 5.3. Advice for firefighters

Wear suitable respiratory equipment when necessary.

## SECTION 6: Accidental release measures

## 6.1. Personal precautions, protective equipment and emergency procedures

Wear suitable protective clothing, gloves and eye/face protection. Avoid contact with eyes and skin.

## 6.2. Environmental precautions

Do not allow product to enter drains. Prevent further spillage if safe.

## 6.3. Methods and material for containment and cleaning up

# Protectapeel MachineGuard

Revision 0

Revision date 2026-04-08

## 6.3. Methods and material for containment and cleaning up

|  |                                                                                                                                                                                                          |
|--|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | Absorb with inert, absorbent material. Transfer to suitable, labelled containers for disposal. Clean spillage area thoroughly with plenty of water. Do not allow runoff water to enter sewers or drains. |
|--|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## 6.4. Reference to other sections

|  |                                             |
|--|---------------------------------------------|
|  | See section 2,8,13 for further information. |
|--|---------------------------------------------|

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

|  |                                                                                                                                                                                                                         |
|--|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | Adopt best Manual Handling considerations when handling, carrying and dispensing. Avoid contact with eyes and skin. Do not breathe sprays. Do not allow product to enter drains. When using do not eat, drink or smoke. |
|--|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### 7.2. Conditions for safe storage, including any incompatibilities

|  |                                                                                                                                                                   |
|--|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | Do NOT allow to freeze. Do NOT mix with any other product. Protect from frost. Store at temperatures between 5 °C and 25 °C. Handle and open container with care. |
|--|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|

#### Suitable packaging

|  |                                                                       |
|--|-----------------------------------------------------------------------|
|  | Keep only in the original container in a cool, well-ventilated place. |
|--|-----------------------------------------------------------------------|

### 7.3. Specific end use(s)

|  |                                          |
|--|------------------------------------------|
|  | See section 1.2 for further information. |
|--|------------------------------------------|

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

|  |                                 |
|--|---------------------------------|
|  | Occupational exposure controls. |
|--|---------------------------------|

#### 8.1.1. Exposure Limit Values

## Protectapeel MachineGuard

Revision 0

Revision date 2026-04-08

## 8.1.1. Exposure Limit Values

|                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

## 8.2. Exposure controls

|                                         |                                                                                                                                                                                          |
|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                         |                                                                                                         |
| 8.2.1. Appropriate engineering controls | Ensure adequate ventilation of the working area.                                                                                                                                         |
| 8.2.2. Individual protection measures   | Adopt best Manual Handling considerations when handling, carrying and dispensing. Avoid contact with eyes and skin. Protective equipment. Use appropriate personal protective equipment. |
| Eye / face protection                   | Wear:.. Approved safety goggles.                                                                                                                                                         |
| Skin protection - Handprotection        | Wear suitable gloves. Wash hands after handling the product.                                                                                                                             |
| Skin protection - Other                 | Wear suitable protective clothing.                                                                                                                                                       |
| Respiratory protection                  | Do not breathe sprays. In case of insufficient ventilation, wear suitable respiratory equipment.                                                                                         |
| Thermal hazards                         | No data is available on this product.                                                                                                                                                    |
| 8.2.3. Environmental exposure controls  | Do not allow product to enter drains.                                                                                                                                                    |

## SECTION 9: Physical and chemical properties

## 9.1. Information on basic physical and chemical properties

|                            |                           |
|----------------------------|---------------------------|
| Appearance                 | Aqueous solution          |
| Colour                     | Clear/Various             |
| Odour                      | Characteristic            |
| Odour threshold            | No data available         |
| pH                         | 7 - 8                     |
| Melting point              | 0                         |
| Freezing Point             | 0                         |
| Initial boiling point      | 100                       |
| Flash point                | No data available         |
| Evaporation rate           | No data available         |
| Flammability (solid, gas)  | No data available         |
| Vapour pressure            | No data available         |
| Relative Vapour Density    | No data available         |
| Density / Relative Density | 1.02 (H2O = 1 @ 20 °C)    |
| Fat Solubility             | No data available         |
| Partition coefficient      | No data available         |
| Autoignition temperature   | No data available         |
| Viscosity                  | 18000 mPas (Cone & Plate) |
| Explosive properties       | No data available         |
| Oxidising properties       | No data available         |
| Solubility                 | Miscible in water         |

## 9.2. Other information

|                                  |                           |
|----------------------------------|---------------------------|
| Conductivity                     | No data available         |
| Surface tension                  | No data available         |
| Specific gravity                 | 1 - 1.1 g/cm <sup>3</sup> |
| Gas group                        | No data available         |
| Benzene Content                  | No data available         |
| Lead content                     | No data available         |
| VOC (Volatile organic compounds) | 68.6 g/l                  |

## Protectapeel MachineGuard

Revision 0

Revision date 2026-04-08

## 9.2.1. Information with regard to physical hazard classes

No data is available on this product.

## 9.2.2. Other safety characteristics

No data is available on this product.

## SECTION 10: Stability and reactivity

## 10.1. Reactivity

Stable under normal conditions.

## 10.2. Chemical stability

Mixture is stable under normal conditions.

## 10.3. Possibility of hazardous reactions

None known.

## 10.4. Conditions to avoid

No Significant Hazard.

## 10.5. Incompatible materials

None known.

## 10.6. Hazardous decomposition products

Burning produces irritating, toxic and obnoxious fumes.

## SECTION 11: Toxicological information

## 11.1 Information on hazard classes

|                                   |                                       |
|-----------------------------------|---------------------------------------|
| Acute toxicity                    | No data is available on this product. |
| Skin corrosion/irritation         | May cause irritation to skin.         |
| Serious eye damage/irritation     | May cause irritation to eyes.         |
| Respiratory or skin sensitisation | No sensitization effects reported.    |
| Germ cell mutagenicity            | No data is available on this product. |
| Carcinogenicity                   | No data is available on this product. |
| Reproductive toxicity             | No data is available on this product. |
| STOT-single exposure              | No data is available on this product. |
| STOT-repeated exposure            | No data is available on this product. |
| Aspiration hazard                 | No Significant Hazard.                |
| Repeated or prolonged exposure    | Avoid prolonged or repeated exposure. |

## 11.1.4. Toxicological Information

|                             |                                                                    |                                 |
|-----------------------------|--------------------------------------------------------------------|---------------------------------|
| 2-(2-Butoxyethoxy)ethanol   | Oral Rat LD50: 5660 mg/kg                                          | Dermal Rabbit LD50: 4000 mg/kg  |
| Benzotriazole derivative. . | Dermal Rat LD50: >2000 mg/kg<br>Inhalation Rat LC50/4 h: >5.8 mg/L | Oral Rat LD50: >5000 mg/kg      |
| Diisononyl phthalate        | Oral Rat LD50: >10000 mg/kg<br>Inhalation Rat LC50/4 h: >4.4 mg/l  | Dermal Rabbit LD50: >3160 mg/kg |

## 11.2 Information on other hazards

No data is available on this product.

## SECTION 12: Ecological information

## 12.1. Toxicity

## Protectapeel MachineGuard

Revision 0  
Revision date 2026-04-08

## 12.1. Toxicity

|                             |                                                                |                              |
|-----------------------------|----------------------------------------------------------------|------------------------------|
| Benzotriazole derivative. . | Fish LC50/96h: 2.8000 mg/l<br>Daphnia LC50/48h: 4              | Algae EC50/72h: >100         |
| Diisononyl phthalate        | Daphnia EC50/48h: 74.0000 mg/l<br>Fish LC50/96h: 100.0000 mg/l | Algae IC50/72h: 88.0000 mg/l |

## 12.2. Persistence and degradability

|  |                                       |
|--|---------------------------------------|
|  | No data is available on this product. |
|--|---------------------------------------|

## 12.3. Bioaccumulative potential

|  |                                       |
|--|---------------------------------------|
|  | No data is available on this product. |
|--|---------------------------------------|

## 12.4. Mobility in soil

|  |                                       |
|--|---------------------------------------|
|  | No data is available on this product. |
|--|---------------------------------------|

## 12.5. Results of PBT and vPvB assessment

|  |                                       |
|--|---------------------------------------|
|  | No data is available on this product. |
|--|---------------------------------------|

## 12.6 Endocrine disrupting properties

|  |                                                                            |
|--|----------------------------------------------------------------------------|
|  | This product does not contain any known or suspected endocrine disruptors. |
|--|----------------------------------------------------------------------------|

## 12.7 Other adverse effects

|  |                                       |
|--|---------------------------------------|
|  | No data is available on this product. |
|--|---------------------------------------|

## SECTION 13: Disposal considerations

## 13.1. Waste treatment methods

|  |                                                                   |
|--|-------------------------------------------------------------------|
|  | Dispose of in compliance with all local and national regulations. |
|--|-------------------------------------------------------------------|

## Disposal methods

|  |                                            |
|--|--------------------------------------------|
|  | Contact a licensed waste disposal company. |
|--|--------------------------------------------|

## Disposal of packaging

|  |                                                         |
|--|---------------------------------------------------------|
|  | Empty containers can be sent for disposal or recycling. |
|--|---------------------------------------------------------|

## SECTION 14: Transport information

## 14.1. UN number

|  |                                                          |
|--|----------------------------------------------------------|
|  | The product is not classified as dangerous for carriage. |
|--|----------------------------------------------------------|

## 14.2. UN proper shipping name

|  |                                                          |
|--|----------------------------------------------------------|
|  | The product is not classified as dangerous for carriage. |
|--|----------------------------------------------------------|

## 14.3. Transport hazard class(es)

|  |                                                          |
|--|----------------------------------------------------------|
|  | The product is not classified as dangerous for carriage. |
|--|----------------------------------------------------------|

## 14.4. Packing group

|  |                                                          |
|--|----------------------------------------------------------|
|  | The product is not classified as dangerous for carriage. |
|--|----------------------------------------------------------|

## 14.5. Environmental hazards

|  |                                                          |
|--|----------------------------------------------------------|
|  | The product is not classified as dangerous for carriage. |
|--|----------------------------------------------------------|

## 14.6. Special precautions for user

|  |                                                          |
|--|----------------------------------------------------------|
|  | The product is not classified as dangerous for carriage. |
|--|----------------------------------------------------------|

## 14.7 Maritime Transport in bulk according to IMO instruments

|  |                                                          |
|--|----------------------------------------------------------|
|  | The product is not classified as dangerous for carriage. |
|--|----------------------------------------------------------|

## SECTION 15: Regulatory information

# Protectapeel MachineGuard

Revision 0

Revision date 2026-04-08

## 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

COMMISSION REGULATION (EU) 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

COMMISSION REGULATION (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC.

## 15.2. Chemical safety assessment

No data is available on this product.
